CRUSADER KINGS II: TALES OF TREACHERY

the future. Courtiers are plucked from obscurity to rule tiny counties, and you pray that a political marriage will turn into a love story. Through the course of the game, inheritance rules may mean that you could play both a king and that king's "evil brother" in succession.

Perhaps it is this forced empathy—this sense that every character you encounter has their own struggle and own motivations separate from yours—that makes *Crusader Kings II* such a durable and popular game for storytellers. Characters are cruel and will do cruel things, but you saw them tutored by an angry and envious soldier. What else could you expect?

It is not surprising, then, that this game more than any other in our stable has been a starting point for many of our fans to indulge the novelist that lies in almost every heart. Motives are ascribed, and back-stories are filled out, people become playwrights. Sometimes things are done in-game solely for dramatic purposes.

Tales of Treachery is an anthology of short stories inspired by players' experiences in *Crusader Kings II*. There are good guys and bad guys, and good girls and bad girls. There are mysteries and webs of intrigue. Court romance must compete against the sacred obligation to keep the lands united, and the Church is not a paper tiger.

We hope you enjoy what we have assembled here. And we hope it leads you back into another 500 hours of *Crusader Kings II*.

АЛЛО! Я ЗАКОНОИЗРАБННЫЙ ПРЕЗИДЕНТ. КОНСТИТУЮ НЕ НАРУШАЛ!

I just post a review to vote this game up because I feel it doesn't deserve that many negative votes, but while I'm here I'll try to give something.

PROS:

- it's pretty funny
- the metaphorical part of this game is huge and it really cuts deep .
- it doesn't take itself very seriously (could it anyways ?)
- tons of 4th wall breaking moments, and I LOVE it.

CONS:

- although the fighting system is a pretty big part of the game, its balance is really weird and unpolished.

(example, you can get a negative status that makes your char unable to attack for the next turns, if you heal this status the monster might just throw the same attack the next turn and put the status back again immediately, if the game was more polished, healing a status would make you immune to said status for at least a turn in order to avoid that kind of spam.... that being said, it's pretty insignificant.)

In the end, it's a low price RPG maker game, sounds terrible right ?

Yet it's awesome. sweet, there should be an entire game just full of stuff like this. It's a fun change of pace from your usual P&C game. If you like stuff like Demetrios' Big Cynical Adventure and Rusty Lake Hotel then this is for you. Funny, surreal and entertaining while not very complicated.

The only thing that really annoyed me is that the dialogues are endless and I can't seem to speed them up. This game could have done with more minigames and less endless debate.. kinda gay tbh. A very plain, simple and boring puzzle game, not a lot of effort went into creating this game, to be honest it seems and feels like a copy and paste from other games of similar design, just with a different theme, the game is merely here for a +1 to your game/ perfect game count, and nothing more.. This Game has such high potential. The Release date says "July 18, 2014", so I'm not sure if they're still going to release it or not, but I fully think they should. It's a fun little RTS game, and could eventually have an unlimited campaign / skirmish options.

The graphics are obviously on the low end side, but it doesn't take away from the game itself. I like the over view AoM / Sim City game play style, although I think it needs better map navigation.

It's unique, and powerfully addicting. Or maybe that's because I have a weird Zombie Addiction. But to wrap this review all up, I really think this company needs to push forward and release this.

- I I I. No wonder it was so cheap, its as bad as a game you would get for free in a box of cereals.. This game made me sewerslidal. this game is so bad...i must have been drunk when i bought it. Never even played it...if I could refund it, i would.
